Profile

As a Junior Software Engineer with 2.5 years of hands-on experience in software development, I offer proficiency in diverse technologies and a strong commitment to delivering exceptional solutions. I am excited to contribute to a progressive company that prioritizes innovation and supports professional growth.

Professional Experience

Junior Software Engineer, Ffreedom app

05/2022 – present | Bengaluru

- I played a key role in the development and ongoing maintenance of ffreedom.com , where I focused on enhancing user engagement and driving app installations, which contributed to overall business growth. My contributions included implementing the Razorpay payment gateway, which directly increased revenue through streamlined sales processes. I also integrated Firebase into the website to track user activities, providing valuable data that fueled targeted marketing campaigns. Additionally, I facilitated SMS integration to simplify the app installation process for users and conducted a comprehensive audit of Google Search Console, leading to improved SEO performance for the website.
- I developed and maintained APIs to ensure seamless communication between the ffreedom app and backend systems. I resolved critical issues to enhance the user experience, implemented APIs for automatic location detection via IP addresses, and contributed to the mentor connect feature. Additionally, I was involved in creating APIs for profile management, course listing, and the generation of course completion certificates and invoices for successful purchases.
- Improved CRM applications by developing features that automated tasks, enhanced data accessibility, and streamlined workflows, leading to better customer interactions and optimized internal processes.

PHP Developer, Hecho

12/2021 – 05/2022 | Bengaluru

- Played a crucial role in integrating e-commerce web applications and admin panels that facilitated content management for websites.
- Facilitated application teams by creating and integrating APIs, ensuring seamless functionality and enhancing user experience.

Awards

Employee of the month

Got the Employee of the Month certificate three times in a two-year tenure at ffreedom app for consistent dedication.
